Wolstenholme International Ltd
Producer of speciality metallic pigments, metallic inks, vacuum metallised pigments, and carbon black dispersions.

Anirox Pigments Limited
Producer of synthetic iron oxide pigments manufactured through aniline route. (India)

Ferro Corp.
Producer of pigments and colors, especially complex inorganic color pigments and high infrared radiation reflecting pigments.

Sachtleben Chemie GmbH, part of Rockwood Group
Manufacturer of white pigments and extenders: Titanium dioxide (Hombitan®, anatas and rutil), zinc sulfide (Sachtolith), and special compounds of barium sulfate and zinc sulfide (Lithopone). Titanium dioxide nano grades (Hombitec), developed specially for wood preservation.

BASF SE
Manufacturer of preparations of organic and inorganic pigments in paste-form (Dispers, Pigmosol).

Worlée-Chemie GmbH
Manufacturer of pigments and dyes such as carbon black, fluorescent pigments, titanium dioxide, chrome-nickel-titanium, organic pigments, iron oxides, pearlescent pigments.

DuPont Titanium Technologies
Titanium dioxide pigment grades for a wide range of end use applications; even nano-titanium dioxide. (Ti-Pure)

Nubiola Pigmentos SA
Manufacturer of inorganic pigments, some of them specifically designed for the use in mortars and concrete.

KG Deutsche Gasrußwerke GmbH & Co
Producer of carbon blacks and pigment blacks.

Harold Scholz & Co. GmbH
Pigments used for colouring of concrete and coatings: Iron oxides (powder, granulate, slurry), chromium oxide green, mixed metal oxides, titanium oxide (Anatase), and carbon blacks (powder, slurry).

Eckart GmbH & Co. KG
Metallic, pearlescent, holographic and thermochromic effect pigments.

Huntsman Tioxide
Producer of titanium dioxide pigments for use in construction coatings.

Shijiazhuang Jirong Chemical Co., Ltd.
Manufacturer of chrome oxide green. From China (english version of website currently out of order).

Bruchsalter Farben GmbH & Co. KG
Manufacturer of lead chromates, bismuth vanadates, and mixed pigments.

Krahn Chemie GmbH
Aluminiumpastes, aluminiumpowder, iron oxides, organic pigments, pigment pastes and pigment concentrates.

Shanghai Yipin International Pigments Co. Ltd
Producer of iron oxide pigments, chrome pigments, anticorrosive pigments and magnetic iron oxide.

Elementis Specialties, Inc.
Pigment dispersions. [registration required]

Lanxess AG (former Bayer AG)
Colorants for the coatings and construction materials industries (bayferrox and chromium oxides).
Hangzhou Synox Pigments Co., Ltd.
Manufacturer of synthetic iron oxide pigments as well as transparent iron oxides, magnetic iron oxides and micaceous iron oxides (Tradename Synox).

Tongchem
Synthetic iron oxide pigments. Basic product varieties cover 30 types, including iron oxide red, yellow, black, orange, brown and green. Furthermore chrome oxide green, ultramarine blue, titanium dioxide (anatas and rutil) as well as organic pigments (yellow, orange, red, phthalocyanine blue & green). Tongchem is a chinese manufacturer and exporter.

BASF SE (former Ciba Specialty Chemicals)
Manufacturer of pigments for inks, paints, and plastics.

Cabot Corp.
Manufacturer of Carbon black ("Black Pearls").

BASF SE, former Engelhard Corporation
Inorganic and organic pigments (powder and dispersions); various effect pigments.

Omnicon A/S
Powder pigments and liquid colors for concrete products, ready-mix concrete and bitumina industry. Product range includes dosing equipment.

Kronos Worldwide, Inc.
Manufacturer of titanium dioxide pigments with global presence (15 production locations).

Prochem AG
Distributor of pigments (manufactured by Ciba and Kerr-McGee) to the Swiss market.

Keystone Aniline Corporation
Dyes for Polymers, Inks & Coatings: Fluorescent dyes, thermo-chromatic pigments, color changing dyes, near infrared absorbing dyes and other specialties.

Heubach GmbH
Producer of anticorrosive pigments, nickel- and chromium titanate pigments, spinel pigments, pigment mixtures, pigment preparations. (Heuco, Heucodur, Heucorox, Heucotron)

Crimea Titan, Armyansk
Producer of titanium dioxide.

Cathay Pigments (Deutschland) GmbH
Pigments used for colouring of concrete and coatings: Iron oxides (powder, granulate, slurry), chromium oxide green, complex inorganic colour pigments (i.e. cobalt blue).

Genky Chemical Co., Ltd. (now Zhejiang Netsun Co. Ltd.?)
Nano-grade transparent iron oxide pigments and dispersions. The products are divided into two categories, solvent-borne and water-borne with a color range of yellow, red, green, black and brown.

English website no longer available. Located in China.

Gustav Grolman GmbH & Co. KG
Distributes pigments and pigment preparations: Carbon black, titanium dioxide, azo pigments, cadmium pigments, cerium pigments, manganese violet, organic pigments phthalocyanine pigments, ultramarine pigments.

Benda-Lutz Werke GmbH
Produces metal pigments and metal powders.

Kremer Pigmente Dr. Georg Kremer
Offers more than 500 different pigments for all kinds of painting techniques, especially historic pigments for fine arts and restoration.

BASF Aktiengesellschaft
Yil-Long Chemical Group Ltd., Tionox Div.
Manufacturing and marketing organisation for titanium dioxide pigments Tionox, anatase and rutile grades of
Chinese origin.

Schlenk Metallpulver GmbH & Co.KG
Aluminium (powder, flakes, granulate), copper and copper-alloys (especially Goldbronze).
Hrsg.: Carl Schlenk AG

Holliday Pigments Ltd.
Manufacturer of Ultramarine pigments. Blue is the dominant colour, but ultramarine violet and pink are available,
too. Furthermore they manufacture a range of Manganese Violet pigments.
